SKILLS

- **Programming and Markup Languages:** Python, C, C++, Java, JavaScript, HTML, CSS
- **Frameworks/Libraries :** Django, FastAPI, Scikit-learn, XGBoost, Hugging Face Transformers
- **Machine Learning & AI:** NumPy, Pandas, Matplotlib, Seaborn, OpenCV
- **Core Subjects:** Data Structures & Algorithms, Operating Systems, OOPs, DBMS, Software Development Lifecycle
- **Tools/Platforms:** GitHub, Docker, Kubernetes, Streamlit, Jupyter Notebook, VS Code, Hugging Face
- **Databases:** MySQL, MongoDB, PostgreSQL, SQLite
- **Soft Skills:** Problem-Solving Skills, Team leading, Project Management, Adaptability, Critical thinking

PROJECTS

- **AI-Powered Emergency Response Network (Internal SIH-2025) | [GITHUB](#) | [DEMO](#)** Oct 2025
 - Designed a real-time admin dashboard for **case filtering, status tracking, and rapid response coordination**
 - Developed secure APIs for slot-wise demand tracking and order status management
 - Implemented **role-based authentication, volunteer verification, and geolocation-based task assignment using MongoDB.**
 - Built a responsive React frontend with modular dashboards and integrated Node.js REST APIs.
- **Cosmo Clash – A learning Java Swing app | [GITHUB](#)** Sep 2025
 - Created Cosmo-Clash, an offline Java Swing desktop game with **multiple mini-games (Q&A trivia, fill-in-the blanks, riddles) featuring interactive UI, animations, scoring, and smooth game** flow using OOP and event handling.
 - Configured a modular, extensible codebase with optimized performance, enabling easy addition of new game modes and efficient file-based data handling.
 - Tech used: Java, Java Swing, AWT, OOP, Event Handling, Java Threads, and File-based Storage.
- **Waste Regulation and Food Donation Portal (ML Model) | [GITHUB](#) | [DEMO](#)** Mar 2025
 - Built an ML-powered platform for waste management and food distribution using **clustering and regression** techniques
 - Achieved 98.1% accuracy with XGBoost for predicting optimal distribution patterns
 - Integrated Dijkstra's algorithm for efficient resource allocation and delivery routing
 - Developed an interactive platform with a **food donation portal, admin dashboard for tracking and data management, and a real-time priority system highlighting latest high-need areas**

TRAINING

- **Java Maestro: Hands-On Training on Developing GUI Applications | [Certificate](#)** July 2025
 - Completed a certified Java-Swing course at Lovely Professional University on desktop application development using OOP, GUI components, event handling, and JDBC.
 - Gained hands-on experience building GUI applications — including games, management systems, and CRUD based projects — reinforcing modular design and desktop-app best practices.
 - Tech learned – Java swing, AWT, Event handling, OOP-based GUI design, JDBC connectivity, file handling, and multithreading for building scalable desktop applications.

CERTIFICATES

- Data Science and Analytics | [HP](#) Dec 2025
- Oracle Cloud Infrastructure AI Foundations | [ORACLE](#) Oct 2025
- Privacy and Security in Online Social media | [NPTEL](#) Apr 2025

ACHIEVEMENTS

- SIH Internal Round Qualifier — shortlisted at the institute level for Smart India Hackathon. Sep 2025
- Achieved a Top 5 rank in the highly competitive BinaryBlitz Hackathon. Dec 2024
- Solved 250+ DSA problems on LeetCode (100 Days Badge). Aug 2024 –present

EDUCATION

- **Lovely Professional University** Punjab, India
 - Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.18** Aug 2023-present
- **Kendriya Vidyalaya No.2 Adampur** Punjab, India
 - Intermediate; **Percentage: 87** Apr 2022- Apr 2023
- **Kendriya Vidyalaya Chandigarh** Punjab, India
 - Matriculation; **Percentage: 95** Apr 2020- Apr 2021
